## stiffener bars

Rectangular table tops with Torrey legs require external stiffeners. Stiffeners may interfere with mounting of some electrical grommets. Ship separately and are field installed. Placement allows for 7" of clear space between stiffener bars in center of the table for electrical grommet placement. Use AC-SPRD-TRY for \$126 for each stiffener bar.

**Round & Square Tables**  
No addition support required

**Small Rectangular Tables**  
For tables 60" wide or less, Torrey legs can be mounted at 45 degree angle to corner. 1 stiffener bar is recommend.

**Medium Rectangular Tables**  
For tables 66"-96" wide, Torrey legs must be mounted parallel to end of table. 1 stiffener bar is required. Distance between legs **cannot exceed** 52".

**Large Rectangular Table**  
Torrey can support a max top size of 120"if 6 legs are used. 2 Stiffener bars are required. Legs must be mounted parallel to table ends.
